

Introducing **Quala Trax**

The fastest, easiest, most convenient way to check your vehicle's service status.

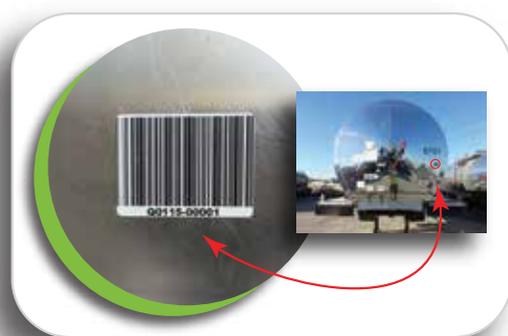

Now, you can get instant information, and stay on top of your vehicle every step of the way, 24 hours/day.

With Quala Trax, you get all the information you need right at your fingertips.

Want to know where your tank trailer stands in the queue? Dirty, in process, clean, etc.—Now you can, with Quala Trax.

▶ Here's how it works.

Every tank container gets its own unique barcode. Yes, a very tiny 10 digit code. The barcode is then affixed to the vehicle, and travels with it through all the steps of the cleaning process. While the vehicle moves through these steps, the barcode is scanned, and the vehicle tracking status begins. All information is quickly entered into the Quala Trax, and that data becomes instantly available to you—right within your account portal. It's that easy. **No more waiting. No more questions. Just a straight forward solution to getting a "real time" progress report on your vehicle's service.**

▶ The information you need, when you need it.

At Quala, we listen. We've built a program that's not only tailored to YOUR needs, but is easy to access.

With Quala Trax, you now have visibility of your equipment at one location, or ALL 60 locations. AND, daily yard checks can be sent via email or fax.

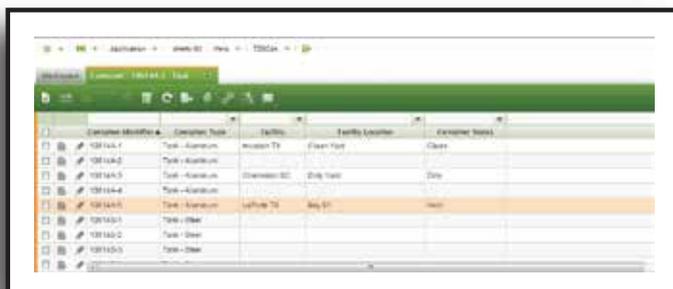

When you login to your account through our customer specific web portal, and access Quala Trax, you'll be greeted with a simple "Multi Tab User Interface." Within your account, you'll have available such items as Container Status and History, Invoices, Wash Tickets and Work Orders, list of Quala facilities and contacts, Tutorials, and Reports by Email to name a few. We've even set up customer relevant widgets just for you!

All the information you need, anytime, 24 hours a day, 7 days a week.

24/7

▶ **Quala Trax.** *Fast and Convenient. Better information allowing YOU to make better decisions.*

One simplified, easy-to-use interface, and the fastest, most convenient way to check your vehicle's service status. Only from Quala.

Contact your Quala representative today to see how you can put YOUR tank containers in the Trax!
